

## **Educational Technology Courses -- Masters & Certificate Programs -- Summer 2008**

These courses are delivered primarily via distance, using a variety of media including Web (online; specifically, the Desrie2Learn instructional management system), CD ROM, and other computer-based and text-based materials. Courses are designed for educators at the K-12 or higher education level and will provide students with the skills and abilities to use technology effectively in their teaching.

Students may enroll in the classes as part of the MSUM "Teaching and Learning with Technology" certificate program at either the undergraduate or graduate level or as part of the Educational Technology Emphasis, General Leadership option, of the MSUM Educational Leadership Masters program. Classes may also be taken for professional development or as an elective for another related degree program.

For further information on the Teaching and Learning with Technology Certificate program, see the following Web site -- [www.mnstate.edu/DistanceEd/](http://www.mnstate.edu/DistanceEd/) or contact Dr. Rhonda Ficek at [ficek@mnstate.edu](mailto:ficek@mnstate.edu).

For further information on the MSUM Educational Leadership Masters Program in General Leadership with Educational Technology Emphasis, contact Dr. Boyd Bradbury at [bradbury@mnstate.edu](mailto:bradbury@mnstate.edu) or visit the program Web site at: [www.mnstate.edu/EdLeadEdTech/](http://www.mnstate.edu/EdLeadEdTech/).

**Note:** All required course class time ("contact hours") will happen online via the Web for these courses. All classes require access to the Internet and a computer with a CD Rom drive; and basic knowledge of webpage design and creation, as well as familiarity with online computer communication methods (such as email and ListServs). Students will receive information on accessing the online course and orientation to using the software prior to the start of the course.

---

### **ED 419/519 (000408/000409) Creating Web-Based Curriculum Materials (2 cr)**

**Online (Some online "virtual" meetings may take place, with choice of times): July 7 – Aug 8, 2008**

**Instructor: Sheri Okland**

This course will assist educators in the design and implementation of a classroom web site containing web-based lesson plans. It will also assist educators with web-based delivery methods and collaborative projects. Participants will create web-based classroom materials and collaborate with others via the Internet to extend the boundaries of the classroom.

### **ED 428/528 (000406/000407) Effective Use of Multimedia (2 cr)**

**Online (Some online "virtual" meetings may take place, with choice of times): May 28 – July 1, 2008**

**Instructor: Barb Hoppe**

This course covers how multimedia enhances instruction and learning. Participants will plan and implement multimedia for classroom instruction. They will also review the use of multimedia to create multisensory learning experiences.

### **ED 490/590 (000404/000405) Design of Online Instruction (2 cr)**

**Online (Some online "virtual" meetings may take place, with choice of times): May 28 – July 1, 2008**

**Instructor: Staff**

Participants in this course will create components of an online course. Educators will learn how to design the course from the ground up, including, identifying program outcomes and course competencies, designing learning activities, and creating and evaluating assessment tasks. The course design process will be focused on designing for the unique requirements of the online environment.
